Our service support team offers various Service Agreements customized to your specific needs. Some of the services that may be included in a service agreement include: Cleaning and Servicing of projector lamps and filters, Validation of your control system's programming and function, Verification of total system performance, Detection and Repair of system problems and complete documentation of the service call (including recommendations for repairs and system upgrades).

The many benefits of having a maintenance agreement include: On-site and email support, scheduled routine maintenance based upon your preferred timeline, extended equipment lifespan and increased operational quality, preventive approach helps to avoid higher cost of system failure and the ability to offer you a ready solution to avoid expensive down time.

Please call 0700 WOODSTOCK (0700 966378625) or contact our service support team by Email at support@woodstockelectronics.com for further information and to arrange for an on-site evaluation of your systems.
